CALL FOR PAPERS
The 20th International Conference on Advanced Information Systems Engineering (CAiSE'08)
16-20 June 2008, Montpellier, France

http://www.lirmm.fr/caise08

Sustainable Information Systems

The CAISE Conference is celebrating its 20th birthday! After these 20 years, Information Systems (IS) now support and underlie most, if not all, of our human activities. Considering the major economic and social development challenges now at stake, it is time to enter into the era of Sustainable Information Systems (SIS). As our world of interdependent activities and information technology continues to undergo profound changes and transformations, it is fundamental to maintain an adequate balance between activities and systems, and to promote their evolution in the context of sustainability.

Scope: CAiSE’08 aims to bring together practitioners and researchers in the field of information systems engineering. CAiSE’08 invites submissions on the development, evolution, requirements and usage of information systems. This year’s special theme is "Sustainable Information Systems" (SIS) which are information systems with built-in support to handle evolution. Information systems are growing rapidly in scale and complexity. At the same time, information system evolution is a fact of life in today’s organizations. Furthermore, nomadism and mobile communication lead to a process of continuous change of services provided by information systems. SIS should continuously simplify adequacy between system and enterprise requirements as well as assimilation of new supporting technologies. In addition, approaches for SIS should reduce the failure rate in IS development and allow for the definition of quality & maturity of IS development. An SIS must meet the needs of the present without compromising its ability to meet future requirements related to its context of use, and, consequently, must enable and facilitate innovative policies and practices at the activity level.

<table>
<thead>
<tr>
<th>Topics of interest include, but are not restricted to:</th>
<th>The conference also welcomes papers on the fundamental aspects of IS engineering.</th>
</tr>
</thead>
<tbody>
<tr>
<td>• IS development for sustainability IS</td>
<td>• Enterprise architecture and enterprise modelling</td>
</tr>
<tr>
<td>• IS development with ubiquitous technologies</td>
<td>• Requirements engineering for IS</td>
</tr>
<tr>
<td>• IT requirements for SIS development</td>
<td>• Knowledge patterns relevant to IS engineering (ISE)</td>
</tr>
<tr>
<td>• Cognitive, business, social and requirement models for SIS</td>
<td>• Ontology for ISE</td>
</tr>
<tr>
<td>• Secure &amp; trusted SIS</td>
<td>• Business process modelling and management</td>
</tr>
<tr>
<td>• IS compliance with rules, regulations or laws</td>
<td>• IS Component-based development</td>
</tr>
<tr>
<td>• IS evolution at any level: goals, requirements, models, systems</td>
<td>• Interoperability of IS and enterprises</td>
</tr>
<tr>
<td>Database support for SIS</td>
<td>• Semantic web, Web 2.0</td>
</tr>
<tr>
<td>• Conformance of the various IS levels: process, static, requirement, use case</td>
<td>• Components of methods, chunks, fragments</td>
</tr>
<tr>
<td>• Adequacy of IS development and enterprise development</td>
<td>• Constellation of values, intentions, requirements</td>
</tr>
<tr>
<td>• Networked &amp; virtual organizations</td>
<td>• Formal IS aspects</td>
</tr>
<tr>
<td>• Participatory, collaborative IS approaches</td>
<td></td>
</tr>
</tbody>
</table>

Important Dates:
14 October 2007: Tutorials & Workshops submission deadline
November 30, 2007: Paper submission deadline
February 15, 2008: Notification of acceptance
June 16-20, 2008: Conference & Workshops

Types of contributions: we invite four types of original and scientific papers:

- **Formal and/or technical papers** describe original research contributions (theoretical, methodological or conceptual) to the field of IS engineering. A research paper should clearly describe the situation or problem tackled, the relevant state of the art, the position or solution suggested and the potential - or, even better, the evaluated - benefits of the contribution.

- **Evaluation papers** evaluate existing problem situations or validate proposed solutions with scientific means, i.e. by empirical studies, experiments, case studies, simulations, formal analyses, mathematical proofs, etc. Scientific reflection on problems and practices in industry also falls into this category. The topic of the evaluation presented in the paper as well as its causal or logical properties must be clearly stated. The research method must be sound and appropriate.

- **Experience papers** present problems or challenges encountered in practice, relate success and failure stories, or report on industrial practice. The focus is on 'what' and on lessons learned, not on an in-depth analysis of 'why'. The practice must be clearly described and its context must be given. Readers should be able to draw conclusions for their own practice.

- **Exploratory Papers** can describe completely new research positions or approaches, in order to face to a generic situation arising because of new IT tools or new kinds of activities or new IS challenges, in particular relevant to sustainable IS. They must describe precisely the situation and demonstrate how current methods, tools, ways of reasoning, meta-models… are inadequate. They must rigorously present their approach and demonstrate its pertinence and correctness to addressing the identified situation.
Submission Conditions: Papers should be submitted in PDF format. The results described must be unpublished and must not be under review elsewhere. Submissions must conform to Springer's LNCS format and should not exceed 15 pages, including all text, figures, references and appendices. Submissions not conforming to the LNCS format or exceeding 15 pages will be rejected without review. Information about the Springer LNCS format can be found at http://www.springer.de/comp/lncs/authors.html. Three to five keywords characterising the paper should be indicated at the end of the abstract.

Review Process: At least three members of the CAiSE’08 program committee will review each submission. The program committee will meet to review and make final decisions. Accepted papers will be presented at CAiSE’08 and published in the conference proceedings.

Publication: The conference proceedings will be published in Springer Lecture Notes in Computer Science (LNCS).

Committees

Advisory Committee
Arne Sølvberg, Norwegian University of Science and Technology, Norway
Janis Bubenko Jr, Royal Institute of Technology, Sweden
Colette Rolland, University of Paris 1 - Panthéon – Sorbonne, France

General Chair
Michel Léonard, University of Geneva, Switzerland

Program Chair
Zohra Bellahsene, University of Montpellier 2, France

Workshop Co-Chairs
Xavier Franch, University of Catalunya, Spain
Ela Hunt, ETHZ, Switzerland

Tutorial and Panel Co-Chairs
Ann Persson, University of Skovde, Sweden
Camille Salinesi, University of Paris 1 - Panthéon - Sorbonne, France

Publicity Chair
Selmin Nurcan, University of Paris 1 - Panthéon - Sorbonne, France

Program Committee Board

Hans Akkermans, NL
Sjaak Akoka, France
Eric Dubois, Luxembourg
Johann Eder, Austria
Pericles Loucopoulos, UK
Andreas Opdahl, Norway
Oscar Pastor Lopez, Spain
Barbara Pernici, Italy

Sponsorship Chair
Mark Roantree, Dublin City University, Ireland

Forum Chair
Carson Woo, University of British Columbia Vancouver, Canada

Doctoral Consortium Co-Chairs
Peter McBrien, Imperial College of London, UK
Farouk Toumani, University of Clermont-Ferrand, France

Local Organisation Chair
Rémi Coletta, LIRMM CNRS-University of Montpellier 2

Local Arrangement
Céline Berger, LIRMM CNRS-University of Montpellier 2

Program Committee

Pär Ågerfalk, Sweden
Jacky Akoka, France
Marko Bajec, Slovenia
Nacer Boudjilida, France
Mokrane Bouzeghoub, France
Boualem Benatallah, Australia
Fabio Casati, Italy
Silvana Castano, Italy
Jaelson Castro, Brazil
Corinne Cauvet, France
David Embley, USA
Joerg Evermann, New Zealand
João Falcão e Cunha, Portugal
Xavier Franch, Spain
Agnes Front, France
Paolo Giorgini, Italy
Claude Godart, France
Jaap Goudjin, NL
Mohand-Said Hacid, France
Terry Halpin, USA
Manfred Hauswirth, Ireland
Patrick Heymans, Belgium
Matthias Jarke, Germany
Manfred Jeusfeld, NL
Paul Johannesson, Sweden
Henk Jonkers, NL
Håvard Jargensen, Norway
Albertas Caplinskas, Lithuania
Roland Kaschek, New Zealand
Marte Kirikova, Latvia
John Krogstie, Norway
Marc Lankhorst, NL
Julio Leite, Brazil
Kaljo Lyytinen, USA
Peter McBrien, UK
Neil Maiden, UK
Isabelle Mirbel, France
Michele Missikoff, Italy
Haris Mouratidis, UK
John Mylopoulos, Canada
Moira Norrie, Switzerland
Andreas Oberweis, Germany
Antoni Olve, Spain
Jeffrey Parsons, Canada
Michaël Petit, Belgium
Yves Pigneur, Switzerland
Gert Poels, Belgium
Navneet Prakash, India
Erik Proper, NL

Jolita Ralyté, Switzerland
Björn Regnell, Sweden
Michael Rosemann, Australia
Mark Roantree, Ireland
Gustavo Rossi, Argentina
Matt Rossi, Finland
Kevin Ryan, Ireland
Motoshi Saeki, Japan
Camille Salinesi, France
Tony C. Shan, USA
Keng Siau, USA
Guttorm Sundre, Norway
Monique Snoeck, Belgium
Chantal Soulé-Dupuy, France
Janis Stirma, Sweden
David Taniar, Australia
Bernhard Thalheim, Germany
Farouk Toumani, France
Aphrodite Tsalagidou, Greece
Patrick Valduriez, France
Olegas Vasiliecas, Lithuania
Yair Wand, Canada
Carson Woo, Canada
Eric Yu, Canada
